AKCEA Therapeutics, Inc.

MEMBER OF  
INNOVATIVE MEDICINES CANADA

Akcea Connect™ is here to help connect you to resources and provide additional support for your PrTEGSEDI™ treatment. This includes helping to coordinate services through specialty clinic networks while you may be traveling.

TEGSEDI™ is used for the treatment of stage 1 or stage 2 polyneuropathy in adult patients with hereditary transthyretin amyloidosis (hATTR).

## Travel checklist

Here are a few things to consider before you travel:

- Contact your Nurse Case Manager to see how Akcea Connect™ can support you during this period. Keep your Nurse Case Manager's phone number with you while you travel:

**1-833-327-0723**

- Coordinate with your healthcare provider before departure and inform them when you will be traveling:

From DD MM YYYY to DD MM YYYY

- Ask your healthcare provider to outline any necessary administration support and laboratory monitoring and record it below:

Note: \_\_\_\_\_

- Verify that you will be able to store TEGSEDI™ in the original container at the required temperature (2 °C to 8 °C) away from light. TEGSEDI™ may be stored unrefrigerated (2 °C to 30 °C) in the original container for up to 6 weeks; if not used within the 6 weeks, throw TEGSEDI™ away.

Storage requirements

- Confirm that you will have enough of the additional necessary supplies for injection, including:

- Alcohol wipe
- Gauze pad or cotton ball
- Sharps container
